Venezuela has been in lockdown since 16.03.2020. Although, the field operations are in process with the production being reported daily but the offices in Venezuela are closed which has impacted Group monitoring of the project.

There is no immediate impact on the production from the project but as the global demand has significantly decreased worldwide long with the lowering of crude oil prices, it may impact the project in future. Indoil have arranged for a valuation report for PCB and the same has been assessed by the Auditors of Indoil Netherlands BV.

During the financial year, Indoil had discussed the matter with its auditors and made the necessary write-downs in the accounts of Indoil Netherlands B.V. The valuation report for PBC is based on the valuation made by an independent valuer and, according to the current auditors' satisfaction, the necessary impairment adjustments have been taken into accounts.

Company had made write-down in both standalone and consolidated statements, as presented in the Annual Report.

The COVID-19 Coronavirus outbreak in early 2020 has brought about additional uncertainties in the Company's operating environment and may impact the Company's operations in its financial position subsequent to the financial year end. The Company has been closely monitoring the impact of the developments on the Company's business and will develop contingency measures as the situation evolves. As the situation is fast evolving, the effect of outbreak is subject to significant levels of uncertainty, with the full range of possible effects unknown.

*Political development impact on the operations in Venezuela*

The production and development activities in the project have been affected due to the deteriorating socio-political situation of the country along with the US Sanctions on PDVSA and Venezuela. The project may revive once the socio-political situation of the country improves as there is no subsurface risk in the project.

The actual tax liability is based on the taxable income for the year. The taxable income diverges from net profit/loss for the year as presented in the income statement, as the taxable income can contain either nontaxable income or non-tax-deductible expenses, that are not deductible in the actual financial year, or taxable or deductible in other years than the actual financial year.

The actual tax liability has been calculated using the tax rates decided upon the balance sheet date.

Deferred tax is the tax as the company expects to pay or receive based on the differences between the presented values of assets and liabilities in the balance sheet and the equivalent taxable values.

Financial assets which are not derivatives are initially recognized at a cost corresponding to the assets fair value including direct expenses. Exceptions are those financial assets recognized at fair value via profits/loss, which are recognized at fair value excluding transaction expenses.

Loan receivables and accounts receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

Loan receivables are measured at the amortized cost, based on the effective interest calculated at the time of acquisition. Accounts receivables are recognized at the amount estimated to be paid after deduction for bad debts. Provision for bad debts is recognized in the operating expenses.

### **Cash and cash equivalents**

Cash and cash equivalents comprise cash and instantly accessible balances at banks and equivalent institutions, as well as current investments with a term from the acquisition date of less than three months which are exposed to only a negligible risk of fluctuation.

### **Financial liabilities**

Financial liabilities are classified as financial liabilities measured at fair value in profit/loss or as financial liabilities measured at the amortized cost.

#### **Note 14      Financial risk**

The Group's main exposure to financial risk consists of currency risk, liquidity and financing risk and interests.

##### *Currency risk*

The consolidated statement of comprehensive income is effected by exchange rate exposure when the joint operation's income statement is translated into SEK. The consolidated equity is also affected by exchange rate exposure when the net assets in the joint operation are translated into SEK.

Oil India Sweden AB has, with start from the beginning of financial year 2011/2012, changed its accounting currency to Euro, to decrease the risk of exchange rate fluctuations affecting the profit/loss for the year.

##### *Liquidity and financing risk*

Liquidity and financing risk refers to the fact that Oil India Sweden AB cannot meet its payment obligations due to insufficient liquidity or difficulties in raising new loans.

The activities of the group are fully financed by capital injections from the parent company Oil India Limited.

The principal activity of the group is to, through the joint operation Indoil Netherlands B.V., invest in joint arrangement with activities in Project Carabobo, Venezuela. The project will require additional financing, which will be fully covered by the parent company.

##### *Interest risk*

The group's revenues and operating cash flow are in all essentially not affected by interest rate adjustments due to the condition of the market.

#### **Note 15      Significant events after the financial year**

##### *Impact of COVID 19 on the operations of Venezuela*

The recent outbreak of the pandemic Coronavirus, has negatively affected economic conditions regionally as well as globally, disrupt operations situated in countries particularly exposed to the contagion. Since, the company is fully equity funded, it is reliant on support from its Parent company to continue as a going concern. The ultimate severity of the Coronavirus outbreak is uncertain at the time and therefore the Company cannot reasonably estimate the impact it may have on the investments' end markets and its operations. In order to safeguard the health of workers due to pandemic Coronavirus across the world, all activities have been suspended in Venezuela.
